22 CCR § 100146

§ 100146. Scope of Practice of Paramedic.

(a) A paramedic may perform any activity identified in the scope of practice of an EMT in Chapter 2 of this Division, or any activity identified in the scope of practice of an Advanced EMT (AEMT) in Chapter 3 of this Division without requiring a separate certification.

(b) A licensed paramedic shall be affiliated with an approved paramedic service provider in order to perform the scope of practice specified in this Chapter.

(c) A paramedic student or a licensed paramedic, as part of an organized EMS system, while caring for patients in a hospital as part of his/her training or continuing education (CE) under the direct supervision of a physician, registered nurse, or physician assistant, or while at the scene of a medical emergency or during transport, or during interfacility transfer, or while working in a small and rural hospital pursuant to Section 1797.195 of the Health and Safety Code, may perform the following procedures or administer the following medications when such are approved by the medical director of the LEMSA and are included in the written policies and procedures of the LEMSA.

(1) Basic Scope of Practice:

[(A)-(Q) are unchanged]

(R) Administer, using prepackaged products when available, the following medications:

[1-24 are unchanged]

25. sodium bicarbonate;

26. tranexamic acid;

27. ketamine;

28. ketorolac;

29. acetaminophen IV.

[(S) through remainder of text is unchanged]
